

Programme Specification

With effect from: September 2021

A programme specification is the definitive record of your programme of study at the University. It sets out the aims, learning outcomes, and indicative content of the programme. You should read this programme specification alongside the relevant module descriptors and the University's Taught Programme Academic Regulations.

This specification only applies to the delivery of the programme indicated below. The details in this specification are subject to change through the modifications or periodic review processes.

1 Programme name and award

This programme specification relates to the following award(s)

BSc (Hons) Forensic Psychology

2 Aims of the programme

Rationale and general aims, including what is special about this programme

The BSc (Hons) Forensic Psychology programme provides you with a firm grounding in all core areas of psychology, coupled with a focus on Forensic Psychology and the development of employability skills to enable you to be an ethically and socially responsible participant in your community and in your graduate career.

The programme also explores and challenges the historical legacy of psychology. Psychology has, throughout its history, privileged a white Westernised account of human behaviour, leading to the perpetuation of social inequality and social injustice for groups of people not reflected in that privileged view of the world. In tackling these issues, through, for example, the inclusion of issues of race and culture in a range of case studies, the programme asks you to consider what role psychology should play in the 21st Century.

The programme aims to:

1. develop your scientific and critical understanding of the mind, brain, behaviour and experience, and the complex interactions between these;
2. develop your research skills to allow you to investigate a range of experience and behaviour, including an evaluation of the ethical issues surrounding psychological research and practice;
3. develop your transferable personal, practical and intellectual skills to enable you to confidently pursue a graduate career;

4. provide you with the British Psychological Society (BPS) Graduate Basis for Chartered Membership (GBC), which is the first step towards a career as a Chartered Psychologist.

3 Level Learning Outcomes

Learning outcomes are expressed in terms of:

- Knowledge and understanding (K)
- Intellectual / cognitive / 'thinking' skills (I)
- Practical skills specific to the subject (P)
- Employability skills (E)

We design assessment tasks to enable you to demonstrate the level learning outcomes for your level of study. To a greater or lesser extent, all level learning outcomes are embedded into each assessment task. This means we can take a more integrated view of your overall performance at a level.

To progress to the next level, or to receive an award, you will need to satisfy the Level Learning Outcomes below and achieve credit as per the Taught Programme Academic Regulations.

Level Learning Outcomes Choose a level. Start with the 'award' level, e.g. 6 for UG programmes and work backwards	
Level 6	
K1	Detailed knowledge and sophisticated critical understanding of the range of core subject areas, including conceptual and historical issues in psychology, as defined by the British Psychological Society, including reference to recent scholarly resources and evidence, and the accurate use of scholarly conventions in so doing.
K2	Detailed knowledge and sophisticated critical understanding of a range of specialist areas of psychology, with a particular focus on the theory and practice of Forensic Psychology.
K3	Critical understanding and application of a variety of methods of psychological research from design to dissemination and analysis, including quantitative and qualitative methods and approaches.
K4	A critical understanding of the inherent variability and diversity of psychological functioning, including the contribution of pluralistic influences on this.
K5	A critical understanding of the contribution that psychology can make to the wider community and society and its role in promoting human values of equality and social justice.
I1	Secure use of a range of complex analytical techniques appropriate to psychology, with a particular focus on the theory and practice of Forensic Psychology.
I2	Sophisticated and comprehensive evaluation of approaches to solving problems in psychology, with a particular focus on the theory and practice of Forensic Psychology.

I3	Sophisticated and comprehensive evaluation of ethics and values relevant to the application and practice of psychology, with a particular focus on the theory and practice of Forensic Psychology.
I4	Sophisticated communication of results and arguments, fully adapted to the needs of the target audience
I5	The ability to reflect on the relationship between empirical evidence, practical experience and theoretical understanding, and to understand the limits of knowledge
I6	The ability to work individually under appropriate supervision, to initiate, design, conduct, analyse and report empirically based research projects whilst conforming to ethical principles and codes of professional conduct
I7	The ability to employ psychological knowledge in an integrated and sophisticated way to address real-world problems including, but not limited to, those associated with personal and professional development
Level 5	
K1	Detailed knowledge and developing critical understanding of the range of core subject areas, including conceptual and historical issues in psychology, as defined by the British Psychological Society, including reference to recent scholarly resources and evidence, and the accurate use of scholarly conventions in so doing.
K2	Detailed knowledge and developing critical understanding of a range of specialist areas of psychology, with a particular focus on the theory and practice of Forensic Psychology.
K3	Detailed understanding and application of a variety of methods of psychological research from design to dissemination including complex quantitative and qualitative methods and approaches.
K4	The ability to recognise and understand the inherent variability and diversity of psychological functioning, including the contribution of pluralistic influences on this.
K5	An understanding of the contribution that psychology can make to the wider community and society and its role in promoting human values of equality and social justice.
I1	Secure use of complex analytical techniques appropriate to psychology, with a particular focus on the theory and practice of Forensic Psychology.

I2	A developing evaluation of approaches to solving problems in psychology, with a particular focus on the theory and practice of Forensic Psychology.
I3	Consideration and evaluation of ethics and values relevant to the application and practice of psychology, with a particular focus on the theory and practice of Forensic Psychology.
I4	Effective communication of results and arguments, reflecting the needs of the target audience.
I5	The ability to reflect effectively on the relationship between empirical evidence, practical experience and theoretical understanding, and to understand the limits of knowledge.
I6	The ability to work with others to initiate, design, conduct, analyse and report empirically based research projects under appropriate supervision, whilst conforming to ethical principles and codes of professional conduct.
I7	The ability to employ psychological knowledge in an integrated way to address real-world problems including, but not limited to, those associated with personal and professional development.
Level 4	
K1	Foundational knowledge and the beginnings of a critical understanding of the range of core subject areas, including conceptual and historical issues in psychology, as defined by the British Psychological Society, including reference to recent scholarly resources and evidence, and the accurate use of scholarly conventions in so doing.
K2	Foundational knowledge and the beginnings of a critical understanding of specialist areas of psychology, with a particular focus on the theory and practice of Forensic Psychology.
K3	Understanding and application of a variety of basic methods of psychological research from design to dissemination, including quantitative and qualitative methods and approaches.
K4	A foundational understanding of the inherent variability and diversity of psychological functioning, including the contribution of pluralistic influences on this.
K5	A basic understanding of the contribution that psychology can make to the wider community and society and its role in promoting human values of equality and social justice

I1	Secure use of basic analytical techniques appropriate to psychology, with a particular focus on the theory and practice of Forensic Psychology.
I2	Begin to evaluate approaches to solving problems in psychology, with a particular focus on the theory and practice of Forensic Psychology.
I3	A basic understanding and evaluation of ethics and values relevant to the application and practice of psychology, with a particular focus on the theory and practice of Forensic Psychology.
I4	Communication of results and arguments, with awareness of the needs of the target audience.
I5	The ability to begin to reflect on the relationship between empirical evidence, practical experience and theoretical understanding, and to demonstrate a basic understanding of the limits of knowledge.
I6	The ability to work with others to design, conduct, analyse and report basic empirically based research projects under appropriate supervision, whilst conforming to ethical principles and codes of professional conduct.
I7	The ability to begin to employ psychological knowledge in an integrated way to address real-world problems including, but not limited to, those associated with personal and professional development.

Employability Outcomes	
Employability skills are embedded and assessed throughout your programme. Therefore, we use a generic set of employability outcomes at all levels of study.	
E1	Self-management – the ability to plan and manage time; readiness to accept responsibility and improve their own performance based on feedback/reflective learning; the ability to take initiative and be proactive, flexible and resilient;
E2	Team-working – the ability to co-operate with others on a shared task and to recognise and take on appropriate team roles; leading, contributing to discussions and negotiating; contributing to discussions; awareness of interdependence with others;
E3	Business and sector awareness – an understanding of the key drivers for business success, including the importance of customer/client satisfaction and innovation; understanding of the market/sector in which an organisation operates; the ability to recognise the external context and pressures on an organisation, including concepts such as value for money, profitability and sustainability;

E4	Problem-solving – a capacity for critical reasoning, analysis and synthesis; a capacity for applying knowledge in practice; an ability to retrieve, analyse and evaluate information from different sources;
E5	Communication – the ability to present information clearly and appropriately, both orally and in writing, and to tailor messages to specific audiences and purposes;
E6	Application of numeracy – a general awareness of mathematics and its application in practical contexts; the ability to carry out arithmetic operations and understand data, to read and interpret graphs and tables and to manage a budget;
E7	Application of information technology – the ability to identify and use the appropriate IT package for a given task; familiarity with word-processing, spreadsheets and file management; the ability to use the internet and email effectively;
E8	Entrepreneurship/enterprise – the ability to demonstrate an innovative approach and creativity, to generate ideas and to identify and take opportunities;
E9	Social, cultural & civic awareness – embracement of an ethos of community and civic responsibility; an appreciation of diversity and ethical issues; an understanding of cultures and customs in the wider community.

3.1 External Benchmarks

Statement of congruence with the relevant external benchmarks

The programme is congruent with the QAA Benchmark Statement for Psychology (2019) and the curriculum requirements of the British Psychological Society.

4 Indicative Content

Summary of content by theme

Core Areas of Psychology

You will study a curriculum designed to provide a thorough grounding in core domains (biological, cognitive, developmental, individual differences and social psychology), underpinning further study of specialised areas in the final year.

Forensic Psychology

Across the three years of the programme you will develop an understanding of how psychology can contribute to our understanding of offending behaviours, including the application of different perspectives and theoretical approaches to forensic psychology practice. As you progress, the focus becomes more applied and sets theory and practice within a case-study framework.

Research Skills

Skills in research and analysis are introduced and developed in the skills modules in the first two years. This then culminates in an individual research project in the final year in which you will be supervised to design and undertake a small-scale piece of research in an area of your choice.

Professional and Personal Development

The programme is accredited by the British Psychological Society (BPS) as conferring eligibility for the Graduate Basis for Chartered Membership, provided the minimum

standard of a Lower Second Class Honours is achieved. This is the first step towards becoming a Chartered Psychologist.

The programme also provides a balanced and career-relevant education for those not seeking a career in psychology. Embedded within the programme are professional skills, including a professional placement in each of the first two years. We also focus on assessment methods throughout the programme that help you to develop the kinds of skills that are valued by employers.

Your personal development is supported by your Personal Tutor who you will meet regularly to review your personal development goals and achievements.

5 Programme Structure

Programme Structure – BSc (Hons) Psychology (Single Honours)			
Duration	3 years full-time		
Total credit rating	360 (180 ECTS).		
Level 4– With effect from September 2021			
Core: You are required to take the following modules			
Module Code	Module Title	Semester	Credits
PSY4023	Introduction to Forensic Psychology	Semester 1&2	30
PSY4003	Core Psychology 1	Semester 1&2	30
PSY4006	Professional Skills for Psychologists 1	Semester 1&2	60
Level 5– With effect from September 2022			
Core: You are required to take the following modules			
Module Code	Module Title	Semester	Credits
PSY5003	Forensic Psychology in Theory and Practice	Semester 1&2	30
PSY5033	Core Psychology 2	Semester 1&2	30
PSY5006	Professional Skills for Psychologists 2	Semester 1&2	60
Level 6– With effect from September 2023			
Core: You are required to take the following modules			
Module Code	Module Title	Semester	Credits
PSY6006	Psychology Research Project	Semester 1&2	60
PSY6023	Applied Forensic Psychology	Semester 1&2	30
Options: You are required to choose 30 credits from the following modules			
Module Code	Module Title	Semester	Credits
PSY6025	Qualitative Research Methods in Context	Semester 1	15
PSY6035	Business Psychology	Semester 1	15
PSY6045	Clinical Psychology	Semester 1	15
PSY6065	Counselling Psychology	Semester 2	15

PSY6075	Critical Psychology	Semester 1	15
PSY6085	Cyberpsychology	Semester 2	15
PSY6055	The Psychology of Teaching and Learning	Semester 2	15
PSY6095	Forensic Practitioner*	Semester 1&2	15
PSY6105	Health Psychology	Semester 1	15
PSY6125	Health Behaviour Change in Context	Semester 2	15
PSY6115	Professional Learning Through Work*	Semester 1&2	15
PSY6015	Psychology Negotiated Essay	Semester 2	15
PSY6005	Psychobiology of Stress and Illness	Semester 2	15

* These modules may not be taken together.

5.1 Pre-requisites

Modules which must be passed before enrolment to a module at a higher level

N/A

6 Learning, Teaching and Assessment

The University's Learning, Teaching and Assessment Strategy informs the design of your programme. You can find more information about learning, teaching and assessment for your programme within the relevant Assessment Handbooks.

7 Entry requirements

Honours degree programmes (Level 4, 5 and 6)

Applicants should normally have achieved the following prior to registration for the programme:

Five academic qualifications of which at least two should be Level 3 qualifications equivalent to A2 and must also include GCSE grade C or 4 or above in English Language and Mathematics (or equivalent qualification).

Applications are welcome from those with few or no formal qualifications. Any previous relevant work experience and learning will be assessed and, where appropriate, accredited as part of the application process. Please see Leeds Trinity's Recognition of Prior Learning Guidelines and Procedure.

8 Additional support needs

Students with disabilities or other support needs are welcome and are expected to be able to participate fully in this programme. Arrangements will be made, via the normal University support systems, to accommodate students with additional support needs wherever possible, with reasonable adjustments made to accommodate individual needs.

Programme-specific requirements / unavoidable restrictions on participation in the programme

N/A

9 Technical Information

Awarding Body / Institution	Leeds Trinity University
Teaching institution	Leeds Trinity University
Parent School	Social and Health Sciences
Department	Social and Behavioural Sciences
Professional accreditation body	British Psychological Society
Final award	BSc (Hons)
Title of programme(s)	Forensic Psychology
Subsidiary award(s)	Certificate of Higher Education, Diploma of Higher Education, Ordinary Degree
Honours type	Single
Duration and mode(s) of study	3 Years Full-Time
Month/year of approval of programme	April 2020
Periodic review due date	2024/25
HECoS subject code(s)	100387 Forensic Psychology
UCAS course code	CF84
SITS code	FOPSYSH
Delivery venue(s)	Leeds Trinity University

PROGRAMME SPECIFICATION

1. General information

Awarding body / institution	Leeds Trinity University
Teaching institution	Leeds Trinity University
Professional accreditation body	British Psychological Society (BPS)
Final award	BSc (Hons)
Title of programme(s)	Forensic Psychology
Subsidiary award(s)	CertHE and DipHE (fallback awards)
Duration and mode(s) of study	3 Years Full-time, 6 Years Part-time
Start date (this version)	September 2021
Periodic review next due	AY 2019/20
UCAS course code & code name	CF84 BSc/FORENS
Venue(s)	Leeds Trinity University

2. Aims of the programme

Rationale and general aims
<p>The BSc (Hons) Forensic Psychology programme is structured to provide you with a thorough grounding in the core areas of psychology (biological, cognitive, developmental, individual differences, social psychology and research methods), as well as offering an introduction to the field of forensic psychology. A key aim of the programme is to enable you as an individual to think critically, to be able to reflect on theory and practice and to develop a range of skills and competencies that enable you to develop into an ethical and socially responsible individual, both professionally and personally.</p> <p>Throughout your time at Leeds Trinity University you will be provided with opportunities to work both independently and as part of a team. The programme will incorporate a wide range of teaching and assessment methods to allow you to develop both academic and employability skills and in order to broaden the variety of learning experiences, so that you can feel confident in your ability to pursue your career aspirations.</p>

Change of semester re PSY4402 – AG 4.7.18

Addition of PSY6512 and PSY6522 – AG 25.1.19

IA changes – May 2019

PSY6062 removed - CA 3.3.20

Changes at Level 5 and 6 – AG Approval 21.1.21

The programme has a number of specific aims:

1. to provide students with a scientific understanding of the mind, brain, behaviour and experience, and of the complex interactions between these with a particular focus upon the application of psychological knowledge to problems and issues within forensic psychology;
2. to provide students with knowledge and understanding of the scope and activities of the practising Forensic Psychologist;
3. to provide students with the opportunities to develop knowledge and a critical understanding of psychological theory, research findings and applications and the relationships between these;
4. to enable students to develop the knowledge and research skills necessary for investigating a range of experience and behaviour;
5. to provide students with knowledge and understanding of multiple perspectives, including international and cross-cultural influences, within psychology in a way that fosters critical evaluation;
6. to enable students to consider the status of psychology as an empirical science and engage with an evaluation of ethical issues surrounding psychological research and practice;
7. to meet the accreditation requirements of the British Psychological Society (BPS) for the award of the Graduate Basis for Chartered Membership (GBC), which is the first step towards a career as a Chartered Psychologist;
8. to develop a range of transferable personal, practical and intellectual skills, directly relevant to many forms of employment and training;
9. to produce graduates who have experience of working in a professional setting and who are confident in applying their knowledge, skills and understanding in the world of work, are able to reflect on their practice and who recognise the contribution that psychology can make to an understanding of behaviour and experience.

3. Student learning outcomes of the programme

Learning outcomes in terms of:

- knowledge and understanding (K)
- intellectual / cognitive / 'thinking' skills (I)
- physical skills specific to the subject (P)
- employability skills (E)

The 'K1', etc codes are used in section 7c) and module descriptors to refer to each of these learning outcomes.

On successful completion of the BSc (Hons) Forensic Psychology programme, you will have demonstrated:

- K1 detailed knowledge and critical understanding of the range of core subject areas as defined by the British Psychological Society, including reference to recent scholarly resources and evidence, and the accurate use of scholarly conventions in so doing;
- K2 detailed knowledge and critical understanding of a range of specialist areas of psychology;
- K3 understanding and application of a variety of methods of psychological research and analysis, including quantitative and qualitative methods and approaches;

Change of semester re PSY4402 – AG 4.7.18

Addition of PSY6512 and PSY6522 – AG 25.1.19

IA changes – May 2019

PSY6062 removed - CA 3.3.20

Changes at Level 5 and 6 – AG Approval 21.1.21

- K4 the ability to recognise the inherent variability and diversity of psychological functioning, including the contribution of international and cultural differences to this;
- K5 understanding of psychological literacy and the contribution that an understanding of psychology can make to the wider community.
- I1 secure use of analytical techniques appropriate to psychology;
- I2 critical evaluation of approaches to solving problems in psychology;
- I3 consideration and evaluation of ethics and values relevant to the application and practice of psychology;
- I4 effective communication of results and arguments, adapted to the needs of the target audience;
- I5 the ability to reflect critically on the relationship between empirical evidence, practical experience and theoretical understanding, and to understand the limits of knowledge;
- I6 the ability to initiate, design, conduct, analyse and report empirically based research projects under appropriate supervision, whilst conforming to ethical principles and codes of professional conduct;
- I7 the ability to employ psychological knowledge in an integrated and sophisticated way in order to address real-world problems including, but not limited to, those associated with your personal and professional development.
- E1 **Self-management** – the ability to plan and manage time; readiness to accept responsibility and improve their own performance based on feedback/reflective learning; the ability to take initiative and be proactive, flexible and resilient;
- E2 **Team working** – the ability to co-operate with others on a shared task and to recognise and take on appropriate team roles; leading, contributing to discussions and negotiating; contributing to discussions; awareness of interdependence with others;
- E3 **Business and sector awareness** – an understanding of the key drivers for business success, including the importance of customer/client satisfaction and innovation; understanding of the market/sector in which an organisation operates; the ability to recognise the external context and pressures on a organisation, including concepts such as value for money, profitability and sustainability;
- E4 **Problem-solving** – a capacity for critical reasoning, analysis and synthesis; a capacity for applying knowledge in practice; an ability to retrieve, analyse and evaluate information from different sources;
- E5 **Communication** – the ability to present information clearly and appropriately, both orally and in writing, and to tailor messages to specific audiences and purposes;
- E6 **Application of numeracy** – a general awareness of mathematics and its application in practical contexts; the ability to carry out arithmetic operations and understand data, to read and interpret graphs and tables and to manage a budget;
- E7 **Application of information technology** – the ability to identify the appropriate IT package for a given task; familiarity with word-processing, spreadsheets and file management; the ability to use the internet and email effectively;

IA changes – May 2019

PSY6062 removed - CA 3.3.20

Changes at Level 5 and 6 – AG Approval 21.1.21

- E8 **Entrepreneurship/enterprise** – the ability to demonstrate an innovative approach and creativity, to generate ideas and to identify and take opportunities;
- E9 **Social, cultural & civic awareness** – embracement of an ethos of community and civic responsibility; an appreciation of diversity and ethical issues; an understanding of cultures and customs in the wider community.

See also the generic objectives set out in section 4 below.

Note

This degree programme opens up the possibility of undertaking the postgraduate study and training that you would need to become a Forensic Psychologist. Upon completion of the programme, you will be in a position to make informed choices about careers related to Forensic Psychology, as well as other careers as a practitioner psychologist.

Statement of congruence with the relevant published subject benchmark statements

The learning outcomes are consistent with the most recently published Psychology Benchmark Statement (Quality Assurance Agency for Higher Education, 2007), the Framework for Higher Education Qualifications and with the requirements for Graduate Basis for Chartered Membership (GBC) of the BPS.

4. Learning outcomes for Certificates and Diplomas of Higher Education and ordinary degrees

<p>Guidance</p>	
<p>The assessment strategy is designed so that each of these outcomes is addressed by more than one module at Level 4.</p>	<p>Generic learning outcomes for the award of <u>Certificate of Higher Education</u>:</p> <p>On successful completion of at least 120 credits, students will have demonstrated an ability to:</p> <ul style="list-style-type: none"> i) interpret and evaluate data appropriate to the discipline; ii) make sound judgements in accordance with basic disciplinary theories and concepts; iii) evaluate the appropriateness of different approaches to solving problems within the discipline; iv) communicate the results of their work coherently; <p>and will have had specific opportunities to display transferable skills relevant to employment related to the discipline.</p>
<p>The assessment strategy is designed so that each of these outcomes is addressed by more than one module over Levels 4 and 5.</p>	<p>Generic learning outcomes for the award of <u>Diploma of Higher Education</u>:</p> <p>On successful completion of at least 240 credits, students will have</p>

<p>The assessment strategy is designed so that each of these outcomes is addressed by more than one module over Levels 4, 5 and 6.</p>	<p>Generic learning outcomes for the award of an <u>Ordinary Degree</u>:</p> <p>On successful completion of at least 300 credits, students will have demonstrated, in addition to the outcomes for a Diploma:</p> <ul style="list-style-type: none"> i) an ability to make flexible use of disciplinary concepts and techniques; ii) critical evaluation of approaches to solving problems in a disciplinary context; iii) an ability to work autonomously within a structured learning experience; iv) effective communication of the results of their work in a variety of forms; <p>and will have had the opportunity to develop transferable skills relevant to employment related to the discipline including successful completion of two professional placements or school-based training placements.</p>

5. Content

<p>Summary of content by theme (providing a 'vertical' view through the programme)</p>
<p>Core Areas of Psychology</p> <p>As a BSc (Hons) Forensic Psychology student, you will study a curriculum that is designed to provide a thorough grounding in core theoretical areas (biological, cognitive, developmental, individual differences and social psychology), which are all introduced at Level 4 and then studied at a more advanced level in Level 5. This grounding provides students with the necessary breadth and depth of knowledge of core psychological domains to allow further study of more specialised areas at Level 6. Each of the core domains will include a consideration of international and cultural perspectives.</p> <p>Forensic Psychology Modules</p>

Change of semester re PSY4402 – AG 4.7.18

Addition of PSY6512 and PSY6522 – AG 25.1.19

IA changes – May 2019

PSY6062 removed - CA 3.3.20

Changes at Level 5 and 6 – AG Approval 21.1.21

In addition, you will be introduced to forensic psychology at Level 4 (PSY 4202 *Introduction to Forensic Psychology*). This will be developed in Level 5 (PSY 5202 *Forensic Psychology in Theory and Practice*) and further in the core Level 6 module (PSY 6402 *Applied Forensic Psychology*). These modules will provide you with a broad knowledge base of how psychology can contribute to our understanding of offending behaviours, including the application of different perspectives and theoretical approaches to forensic practice.

Research Skills

Skills in research and analysis are introduced and developed throughout the programme. The two research methods modules in the first two years of the programme introduce key concepts and introduce you to a range of data collection and analysis methods and allow you to work with others to design studies and collect and analyse data using a range of techniques. Additional practical work is embedded within other modules and related to the topic areas covered. The culmination of the research methods work provided throughout the programme is the completion of PSY 6114 *Major Research Project*, in which you will be supervised to design and undertake a small-scale piece of research in an area of your choice, using whichever research methods are most appropriate for investigating your chosen research questions.

Critical Thinking Skills

Critical evaluation of psychological theory, research findings and their application plays a central role in the programme, and the development of this set of skills is central to all of the modules studied.

In order for you to develop further your critical thinking skills and engage in critical debate in areas beyond psychology, you study a module in the first year called '*Ethics, Society and Employability*'. This focuses on the development of critical thinking and critical reflection and the evaluation and use of scholarly texts to construct a reasoned argument, and augments the development of these skills throughout the rest of the modules. In this module, you engage with debates on a range of contentious issues that are designed to stimulate thought and reflection. This module broadens your horizons and develops your awareness of different perspectives and critical debate on contemporary issues.

The module also incorporates a professional placement, which takes place at the end of the academic year. This provides a focus for the development of employability skills.

Professional and Personal Development

This programme provides you with the opportunity to develop a range of personal and intellectual skills appropriate to graduates intending to pursue careers as professional psychologists. Whilst providing a curriculum that is relevant for the Graduate Basis of Chartered Membership of the BPS, the programme is also sufficiently broad to provide a balanced and career-relevant education for those not seeking a career as a chartered or registered psychologist. Embedded within the programme are professional development skills, as well as a work placement at the end of each of the first two years of the programme. There is also an opportunity to undertake a sustained period of volunteering work in the second year of the programme as an alternative to the

Change of semester re PSY4402 – AG 4.7.18

Addition of PSY6512 and PSY6522 – AG 25.1.19

PSY6062 removed - CA 3.3.20

Changes at Level 5 and 6 – AG Approval 21.1.21

placement. Employability also lies at the heart of the teaching, learning and assessment strategy for the programme, and the professional development and placements are central to this.

Your Personal Tutor will provide you with a continuous element of support throughout the programme by contributing to the development of confidence, esteem, criticality, reflective thinking and independent learning. Your Development Tutor will support you in your progression to maximise your potential and will provide a link to the various student support services, including the Learning Hub, where appropriate.

Emphasis is placed upon student-led learning through practical classes, group project work and research projects. Communication skills are fostered by group and individual presentations and through a variety of written and oral assignments. The ability to work as part of a team forms a major element of the programme, and you will work with others to be collaborative and co-dependent learners throughout. Opportunities to develop other career-relevant skills are provided throughout the programme. Several modules, especially those at Level 6, require autonomous learning for successful completion. In the final year, you will have the chance to undertake a multi-disciplinary project, and there is also opportunity for you to engage in a further work-based module as you prepare for graduation from the programme.

6. Structure

BSc (Hons) Forensic Psychology

Duration: 3 years full-time/6 years part-time
Total credit rating: 360

Level 4 – Replaced by 30-credit version with effect from AY21/22

Core – Students are required to take:

PSY 4202	Introduction to Forensic Psychology	Sem 1	20 credits
PSY 4402	Psychological Approaches to Personality and Intelligence	Sem 1	20 credits
PSY 4992	Ethics, Society and Employability	Sem 1 & 2	20 credits*
PSY 4012	Research Methods in Psychology 1	Sem 1 & 2	20 credits
PSY 4412	Cognition and the Brain	Sem 2	20 credits*
PSY 4442	Psychology of Social Issues 1	Sem 2	20 credits*

* Integrated Assessment will take credits from 3 modules; PSY4992 Ethics Society and Employability, PSY4442 Psychology of Social Issues 1 and PSY4412 Cognition and the Brain

Level 5 - Replaced by 30-credit version with effect from AY22/23

(Progression requirements: 120 credits from Level 4)

Core – Students are required to take:

PSY 5202	Forensic Psychology in Theory and Practice	Sem 1 & 2	20 credits
PSY 5012	Research Methods in Psychology 2	Sem 1 & 2	20 credits
PSY 5302	Psychological Issues in Gender and Emotion	Sem 1	20 credits
PSY 5342	Psychology of Social Issues 2	Sem 2	20 credits
PSY 5312	Mind and Brain	Sem 2	20 credits

Change of semester re PSY4402 – AG 4.7.18

Addition of PSY6512 and PSY6522 – AG 25.1.19

IA changes – May 2019

PSY6062 removed - CA 3.3.20

Changes at Level 5 and 6 – AG Approval 21.1.21

PSY 6522	The Psychology of of Reproductive and Sexual Health	Sem 2	20 credits
PSY 6482	Changing the World	Sem 1	20 credits

* Students may not take both of these modules.

7. Learning, teaching and assessment

7a) Statement of the strategy for learning, teaching and assessment for the programme

The programme meets the requirements of relevant policy documents, particularly the QAA Framework for HE Qualifications, relevant QAA Subject Benchmark Statement and the University's Strategic Plan and Learning, Teaching and Assessment Strategy (2015-19). The learning, teaching and assessment strategy for the programme is centred on the principles of active learning, critical reflection and teamwork. We believe that you, as a student, are responsible for your own learning, and that you also have a responsibility and essential role in supporting the learning of your fellow students. Learning is a shared experience and you will gain enormous benefits from developing your skills and knowledge in partnership with your colleagues.

The programme employs a range of teaching methods, including some traditional lectures and seminars, but there is an emphasis on student-led activities, supervised small-group work and, generally, an approach to teaching and learning that values active learning. At the end of the first year, and again in the second year, you will complete a programme level assessment, drawing on and integrating your learning and experiences acquired across all of your modules. This high level of student responsibility is embedded throughout the programme and you will work in supervised small groups to engage with problem solving and problem-based learning activities. As you progress through the programme, your skills of independent and shared learning will develop,

Change of semester re PSY4402 – AG 4.7.18

Addition of PSY6512 and PSY6522 – AG 25.1.19

IA changes – May 2019

PSY6062 removed - CA 3.3.20

Changes at Level 5 and 6 – AG Approval 21.1.21

enabling you to take the lead in your own learning with the support and facilitation of tutors. It is essential that you take responsibility for your own learning, and that you fully engage with learning activities, both within and in addition to scheduled sessions. Effective use of the Moodle Virtual Learning Environment is made with the provision of, amongst other things, online lectures, instructional videos, podcasts and web links to support your learning.

An important aspect of the programme is the ability to be critically reflective. Throughout the programme and with the support of your Personal Tutor, you will work to develop the academic, personal and professional skills that employers value in prospective employees.

At the end of the first year of study, students will be required to think about a problem/case study related to their programme subject area from a biopsychosocial perspective (drawing from the biological, cognitive and social elements of the core modules). This will allow students to integrate their learning across modules in order to meet programme outcomes.

Assessment within the programme employs a full range of written forms, presentations and practical activities in order to reflect the academic and employability skills being developed within the programme. Employability-relevant forms of assessment, including research posters, information leaflets and evidence-based briefs, are used to assess the outcomes from both individual and group-based learning. Assessment across the programme at each level has been designed to ensure that there are a good variety and balance of assessment forms and that there are opportunities for you to exercise an element of choice in the form of assessment undertaken.

8. Entry requirements

Honours degree programmes

Applicants should normally have achieved the following prior to registration for the programme:

5 academic or vocational qualifications, of which at least 2 should be GCE or VCE 'A' Levels (or equivalent at level 3) and 2 should be GCSE English Language and GCSE Mathematics at grade C (or equivalent).

Some equivalent qualifications and the current typical offer conditions in terms of UCAS Tariff points are detailed in the undergraduate prospectus. For students whose first language is not English, a pass in an approved test in English is needed, e.g. the International English Language Testing Service (IELTS) and the Test of English as a Foreign Language (TOEFL). Prevailing University standards will apply.

Applications are welcome from those with few or no formal qualifications. Any previous relevant work experience and learning will be assessed and, where appropriate, accredited as part of the application process. Please see the University's Recognition of Prior Learning (RPL) procedures.

9. Progression, classification and award requirements

Details of requirements for student progression between levels and receipt of the award(s)
(Modules which must be passed for progression and award; any deviation from the standard University stipulations for award classification)

Standard University undergraduate regulations apply.

10. Prerequisites

Details of modules which must be passed before enrolment on a module at a higher level
Include the rationale which justifies imposition of the prerequisite(s).

The module PSY 6232 *Forensic Practitioner* is only available to students on this programme who have passed both PSY 4202 *Introduction to Forensic Psychology* and PSY 5202 *Forensic Psychology in Theory and Practice*. Students must also have access to work in a forensic/criminal justice setting in order to take PSY 6232.

11. External examining arrangements

External examining arrangements
(eg. joint with another programme or separate, single/multiple examiners and which modules covered by each)

Two external examiners will be responsible for this programme's modules, with one taking overall responsibility for the programme. Both will be academics with substantial experience of teaching in Psychology at undergraduate level, and both will have GBC of the BPS.

12. Additional information

Details regarding arrangements in respect of any special features of the programme/scheme, eg. study abroad, a field course, specific work placement, opportunities for onward progression from foundation degrees

The programme is accredited by the British Psychological Society (BPS) as conferring eligibility for the Graduate Basis for Chartered Membership, provided the minimum standard of a Lower

Second Class Honours is achieved. This is the first step towards becoming a Chartered Psychologist.

Placements in Forensic settings are offered to Level 5 students, in addition to those made available through the Employer Partnership Office. Guest speakers from the Criminal Justice System deliver sessions at Levels 5 and 6.

13. Additional support needs

Arrangements made to accommodate students with additional support needs and any unavoidable restrictions on their participation in the programme/scheme

(Key aspects of the Equality Impact Assessment for the Programme – see Form NP2G for further details)

Students with disabilities or other support needs are welcome and will be able to participate fully in the programme. Arrangements will be made, via the normal University support networks, to accommodate students with additional support needs wherever possible.
