

Programme Specification

With effect from: September 2023

A programme specification is the definitive record of your programme of study at the University. It sets out the aims, learning outcomes, and indicative content of the programme. You should read this programme specification alongside the relevant module descriptors and the University's Taught Programme Academic Regulations.

This specification only applies to the delivery of the programme indicated below. The details in this specification are subject to change through the modifications or periodic review processes.

1 Programme name and award

This programme specification relates to the following award(s)

BA (Hons) Business Management and Law

2 Aims of the programme

Rationale and general aims, including what is special about this programme

The BA (Hons) Business Management and Law programme aims to provide you with the essential knowledge, understanding, skills and experience required to operate effectively and successfully in a key role within the business and legal environment. It provides a route for graduates to develop as practitioners in a cross-disciplinary area and an opportunity for those already in the industry to further their careers.

This programme has a career/practitioner focus, both academically and practically, built with an eye on the existing and predicted future employment needs of the local, national and global economy. The programme draws together the range of key knowledge, skills and attributes required for success across a wide range of related careers, as well as covering fundamental Business principles and Law principles relevant to the Business context. The aims of the programme are:

- to prepare graduates for a wide range of careers in business management, legal advice and/or allied business legal work;
- to develop an awareness of the law and legal advice within the core business functions;
- to align learning to the vibrant business and law portfolios so that context and community are built for all learners.

3 Level Learning Outcomes and Attributes and Skills or Employability Outcomes

Learning outcomes are expressed in terms of:

- Knowledge and understanding (K)
- Intellectual / cognitive / 'thinking' skills (I)
- Practical skills specific to the subject (P)
- Attributes and Skills (undergraduate) (AS) or Employability skills (postgraduate) (E)

We design assessment tasks to enable you to demonstrate the Level Learning Outcomes and relevant Employability Outcomes for your level of study. To a greater or lesser extent, all Level Learning Outcomes at each level of your study are embedded in the assessment task(s) at that level. This means we can take a more integrated view of your overall performance at a level.

To progress to the next level, or to receive an award, you will need to satisfy the Level Learning Outcomes below and relevant Attributes and Skills Outcomes (UG) or Employability Outcomes (PG) and achieve credit as per the Taught Programme Academic Regulations.

Level Learning Outcomes	
Level 4	
K1	Show awareness of the external environment of business, including legal and ethical frameworks, and how this affects management and business practice.
K2	Differentiate between major functional areas of business and recognise the role of each function in the successful running of a business organisation.
K3	Understand the key aspects of the performance of people in organisations and underlying legal implications.
K4	Discover the impact of law on business relationships and show an awareness of ethical issues in the context of business.
I1	Demonstrate how the theory of a business subject is applied in the practice of business management and law.
I2	Analyse issues and problems which arise in the context of contemporary business organisations and their legal implications.
I3	Access and use a range of information tools online and offline to search and find relevant business and legal resources and extract data and information needed to understand theories in the disciplines and define a business problem or legal issue.
I4	Employ quantitative and qualitative information and data in order to identify and recommend solutions.
I5	Communicate effectively using a range of oral, written, and visual communication tools to identify and present issues and challenges, apply relevant theories and propose practical solutions.
I6	Work effectively as part of a team on a given task, meeting obligations to other team members.
Level 5	

K1	Identify the remit of areas of business and law specialisms and how they relate to own professional and career choices.
K2	Critically review current research and evaluate arguments, assumptions and data to make own judgements in relation to business issues in general and functional specialism in particular.
K3	Examine the inter-relationships between business functions and how these functions work together with legal frameworks to deliver value to business stakeholders.
K4	Debate the key challenges in the current global business environment and how they affect business organisations.
I1	Integrate theory and practice by demonstrating how resources, financial and human, are secured, integrated, allocated and effectively managed to meet organisational objectives.
I2	Adopt multiple perspectives to identify key elements of real-life problems, assess implications of alternative scenarios and suggest justified solutions.
I3	Analyse and manage risk factors within a business project.
I4	Evaluate own strengths and weaknesses, identify career opportunities and critically assess own skills and attributes against requirements for future professional employment.
I5	Access, collect and analyse self-determined quantitative and qualitative information for effective use.
I6	Apply management research methods.
Level 6	
K1	Develop a cross-cultural perspective on the operational and strategic challenges faced by organisations.
K2	Critically analyse business theories, concepts and problems and formulate conscious, informed and justified professional opinion.
K3	Critically review current research debates relevant to a self-determined research topic in area of specialism.
I1	Critically evaluate alternative policies and strategies a company may adopt to meet stakeholder needs and minimise risk within changing internal and external environments.
I2	Develop appropriate criteria to identify a range of solutions to a complex business problem in a functional specialism and demonstrate an ability to make decisions.
I3	Identify and critically examine contemporary issues influencing business thinking and behaviour in business organisations.
I4	Demonstrate effective cognitive, problem-solving and decision-making abilities using appropriate quantitative and qualitative skills.
I5	Work effectively as a member of a team, negotiating in a professional manner using communication to persuade and convince to build a shared understanding of team goals.
I6	Formulate a coherent complex argument within a theoretical and contextual framework in area of specialism.

Attributes and Skills Outcomes (undergraduate)	
AS1	Working Independently - prioritising workload, anticipating and troubleshooting potential problems, and achieving this without requiring continual oversight from a supervisor or manager;
AS2	Research & Thinking Critically - systematic investigation of resources to identify relevant information. Critical thinking refers to a process of independent scrutiny, allowing formation of a well-reasoned opinion for application of the research to decision-making and action;
AS3	Digital Confidence - identifying, learning and confident adoption of digital tools, applications and software to improve existing processes, meet emerging challenges or develop new approaches;
AS4	Adaptability - the ability to make the most of changing circumstances and adapt to new conditions;
AS5	Resilience - the ability to recognise that you will be exposed to adversity but that you will be able to respond positively and ultimately adapt and grow from challenging events;
AS6	Professional Outlook - preparing yourself to successfully research, plan and apply for opportunities through effectively articulating your skills and attributes whilst understanding how to present yourself in professional working environments to achieve your career goals;
AS7	Effective Communication - the ability to work cooperatively with others to achieve a group objective and the recognition that good leadership empowers achievement of collective goals through combined efforts;
AS8	Ethics, Diversity, Sustainability - making a positive impact on society and the environment as a whole;
AS9	Enterprise and Entrepreneurship - entrepreneurship is the application of enterprise behaviours, attributes and competencies into the creation of cultural, social, or economic value. Enterprise is generating and applying ideas that are practical when undertaking a new venture or project.
