

## Programme Specification

*With effect from:* September 2024

A programme specification is the definitive record of your programme of study at the University. It sets out the aims, learning outcomes, and indicative content of the programme. You should read this programme specification alongside the relevant module descriptors and the University's Taught Programme Academic Regulations.

This specification only applies to the delivery of the programme indicated below. The details in this specification are subject to change through the modifications or periodic review processes.

### 1 Programme name and award

**This programme specification relates to the following award(s)**

BA (Hons) Sociology

### 2 Aims of the programme

#### **Rationale and general aims, including what is special about this programme**

Sociology is concerned with understanding human life and how humans shape and are shaped by the world around them. This programme examines some of the most significant challenges and problems facing society and has been designed to develop your critical understanding and awareness of social life in an increasingly global and digital age.

This programme also explores and challenges the self-image of Sociology and its historical roots. Traditionally, sociology is perceived as originating in Europe and this has consequently privileged Eurocentric accounts and views of the world. Whilst sociology has been an influential discipline in many ways throughout its history, it is important to address these legacies and influences, particularly when they are used as justifications for the perpetuation of social injustices and inequalities. In grappling with its challenging past and with contemporary critiques of Sociology this programme asks you to consider the role that sociology should play in the 21<sup>st</sup> century.

Throughout your studies you will grapple with topics that challenge the ideas you hold about the world. At its core, sociology is a discipline grounded in both theory and evidence. Sociology at Leeds Trinity University is built around three interwoven strands: the theoretical, the empirical, and the practical. Your programme has been

designed with these in mind and works to bring these strands together throughout your degree to establish your knowledge and skills in each of these key areas. As such, you will develop a highly analytical, critical world view underpinned by sociological theory, explore and examine the empirical and research skills necessary for the social sciences, and develop a professional portfolio of work through work placements in your first and second years that complement and build on your studies.

Combined, these strands deliver a programme that is responsive to transformations in social life equipping you with a wide range of social science skills that will contribute to your academic and professional success.

### 3 Level Learning Outcomes and Employability Outcomes

Learning outcomes are expressed in terms of:

- Knowledge and understanding (K)
- Intellectual / cognitive / 'thinking' skills (I)
- Practical skills specific to the subject (P)
- Employability skills (E)

We design assessment tasks to enable you to demonstrate the Level Learning Outcomes and relevant Employability Outcomes for your level of study. To a greater or lesser extent, all Level Learning Outcomes at each level of your study are embedded in the assessment task(s) at that level. This means we can take a more integrated view of your overall performance at a level.

To progress to the next level, or to receive an award, you will need to satisfy the Level Learning Outcomes below and relevant Employability Outcomes and achieve credit as per the Taught Programme Academic Regulations.

## 4 External Benchmarks

### Statement of congruence with the relevant external benchmarks

All Leeds Trinity University programmes are congruent with the Framework for HE Qualifications (FHEQ) and, where appropriate, the Qualifications and Credit Framework (QCF) / National Qualification and Credit Framework (NQF).

Learning outcomes for the programme have been cross-referenced and are fully congruent with the most recent Quality Assurance Agency benchmark statement for 'Sociology' (2019).

## 5 Indicative Content

### Summary of content by theme

Your first year will establish the foundational tools and knowledges you need to succeed in your degree. You will explore both classical and contemporary sociological theory and will begin to foster a sociological imagination that requires you to address the taken

Change of credits for SOC6006 (now SOC6045) and new core module SOC6015 – AG approval 14.7.21  
 SOC6013 replaced by SOC6053 Genocide Studies – PSB and FB approvals (November 2022)  
 04/03/23 Structural changes at level 5 and 6  
 Addition of SOC6075 & SOC6085 optional modules approved FB 6/12/24 (CA)  
 Addition of SOC6095 optional module approved 22/05/25 (CA)

for granted ideas you may have about the world. You will also undertake modules that examine core sociological topics such as identity and inequality and will begin to develop your own knowledge and skills in social research. In your first year you will also develop your professional knowledge and experience.

In your second year you will build upon the knowledge of your first year and will examine the ability of sociology to question and explore everyday life, as well as the impact of digital technologies and culture on social life. Alongside this you will further develop your social science research skills and will begin to think about your own independent research project. You will also undertake your second professional placement that will further enhance your professional experience and network.

Your final year focusses on your dissertation and on gaining some key professional level experience. Your dissertation will be the primary piece of work you accomplish during this year and you will work alongside an academic supervisor to investigate a topic of your own choosing. Through professional learning through work, you will either undertake a final year placement, negotiate a placement project with an organisation, or identify and address any gaps in your graduate level skills. Alongside these two core modules you will have the freedom to choose modules from both Sociology and Criminology that allow you to specialise and focus on areas of significant interest.
