## 2. Aims of the programme

<b>Rationale and general aims, including what is special about this programme (from the student's and a marketing perspective)</b>
<p>The aim of the Foundation Year is to provide you with an introduction to issues and questions that are key to understanding educational issues and children's experiences. You will be encouraged to explore issues such as the processes of child development, family life and schooling. You will also gain an understanding of how learning can be effectively fostered. You will be able to explore how social inclusion and strategies promote this social outcome. In addition to these opportunities, you will also learn about key educational policies and how they have been implemented.</p> <p>You will therefore be provided with an opportunity to actively develop your knowledge of education and childhood whilst having specialised tuition in core academic skills. Through this process it is anticipated that your confidence and readiness for Level 4 study will be enhanced.</p> <p>This programme offers you an alternative entry route for undergraduate study if you are not in a position to commence your university studies at Level 4. Therefore, the Education and Childhood Foundation Year pathway aims to provide access to higher education for students who may otherwise be excluded from university study. For example, you might not have the usual entry requirements to commence learning at Level 4. It is also intended to be a useful pathway for students who have been out of education for a number of years. You may also wish to further build your confidence before studying at Level 4. The Foundation Year in Education and Childhood pathway consequently endeavours to promote a widening of participation in higher education.</p> <p>On completion of the Foundation Year, you should be well equipped to go on to Level 4 study on one of the named linked honours degree programmes in the areas of education and childhood, including Primary Education (with Qualified Teacher Status), as appropriate.</p> <p><b>For Primary Education (QTS) routes:</b></p> <p>If your chosen course is BA (Hons) Primary Education (Early Years 3-7 with QTS) or BA (Hons) Primary Education (Later Years 5-11 with QTS) there are additional requirements for progression to Level 4 - these are determined by the DfE and are set out in section 9 below.</p>

## 3. Student learning outcomes at the level of Foundation Certificate. The learning outcomes for full degree Levels 4 – 6 are described in the relevant Programme Specification.

<p><b>Learning outcomes in terms of:</b></p> <ul style="list-style-type: none"> <li>– knowledge and understanding (K)</li> <li>– intellectual / cognitive / 'thinking' skills (I)</li> <li>– practical skills specific to the subject (P)</li> <li>– employability skills (E)</li> </ul> <p>The 'K1', etc codes are used in section 7c) and module descriptors to refer to each of these learning outcomes.</p>

## 7. Learning, teaching and assessment

### 7a) Statement of the strategy for learning, teaching and assessment for the programme

The learning and teaching provision on the Foundation Year in Education and Childhood is aligned with the central goals, objectives and features of the University's Learning, Teaching and Assessment Strategy 2015-2020. It will provide an experience which is student-centred; teaching which is responsive to the needs of individual students; and a framework within which students are encouraged to begin to their abilities to engage in critical thinking and analytical skills. These are however contextualised within the nature of Level 0.

The following approaches are prioritised in the Foundation Year of the linked non-QTS education and childhood honours degrees:

#### Learning

The focus will be on ensuring that students have an opportunity to develop their understandings of key concepts that are introduced in each module by applying them through active enquiry, practical research tasks, exercises, and collaborative projects.

**A Progressive Learning Structure** is built into the course design:

Students will begin their Level 0 by having an opportunity to develop their academic skills and confidence, before having an opportunity to apply these when they study a negotiated topic of choice for the Project module in semester 2. How to effectively engage in academic writing, orally presentation and research information will be focused upon in the first semester of the Foundation Year. In their studies of education and childhood students will begin by examining at key issues before applying academic concepts and theories to these.

The Programme Specification for Levels 4, 5 and 6 can be found in the [Undergraduate](#) section of the programme of study catalogue.

## Teaching

- **Student-Led Enquiry:** The main form of teaching session will be seminars and workshops, where concepts and skills introduced by the lecturer will be learned through practical application – specific tasks, problem-solving and discussion, with regular provision of formative feedback on those activities.
- **Directed Activities:** Although students will not undertake directed activities at Level 0, students will be set regular activities that will require completion outside formal classes. Formative feedback will be provided on these.
- **Use of VLE:** To support student-led inquiry, learning materials and resources are supplied in advance via Moodle. Resources offered include bespoke videos and podcasts; links to external sites and online resources; online quizzes; and access to all handouts, powerpoints, etc. In addition, all seminars will be followed by a student-led summary of key points learned and discussed, posted on Moodle.
- **Use of other online resources and technology:** Full use will be made, in teaching sessions, independent study, and assessment, of online resources available to support an understanding of education, childhood and academic skills.

## Assessment:

- **Formative Assessment:** Students will have access to formative assessment in every module that they study on. This will usually take the form of feedback on specific tasks given in teaching sessions, online feedback, or feedback on outline plans for assessed work.
- **Diversity of Assessment methods:** Assessment methods will be varied in form and credit value.

**Negotiated Assessment:** Students will have the opportunity, in SOC/SHN/LAW/CYP/BMM/COM/HUM3103 *Project* to negotiate the mode of assessment for a particular assignment. Forms of negotiated assessment might include: video, podcast, written project. The project, including the tutorial support and workshops, will focus on preparation for the specific route chosen for the Level 4 undergraduate study.

## 8. Entry requirements

### Honours degree programmes

Applicants should normally have achieved the following prior to registration for the programme:

5 academic or vocational qualifications, at least one of which should be a GCE 'A' level (or equivalent at level 3) and one should be GCSE English Language at grade 4/C or above (or equivalent). For such students the entry tariff will usually be 32 tariff entry points or above at entry to the foundation year.

It is not a requirement that one 'A' level should be in a specified subjects. A wide range of subjects can be considered relevant.

For students whose first language is not English, a pass in an approved test in English is needed, e.g. the International English Language Testing Service (IELTS), with no component below 5.5, or equivalent test.

Applications are welcome from mature students with few or no formal qualifications. Any previous relevant work experience and learning will be assessed and, where appropriate, accredited as part of the application process. Please see Leeds Trinity's Principles and Guidelines for the Recognition of Prior Learning.

## 9. Progression, classification and award requirements

Details of requirements for student progression between levels and receipt of the award(s)

(A certain level of attainment which must be achieved in a specific module; any modules exempted from condonement, any deviation from the standard institutional stipulations for award classification, eg. exclusion of Level 4 module marks from Foundation Degree classification)

The standard progression requirements, as set out in the current *Taught Course Academic Regulations*, will apply, except for progression to a QTS course- these are set out below.

You will have to pass the Foundation Year to progress to a named linked honours degree programme.

All modules are exempt from condoned failure and must be passed for progression.

### **Foundation Year to a linked BA (Hons) Primary Education (Early Years 3-7 with QTS) or BA (Hons) Primary Education (Later Years 5-11 with QTS)**

In addition to the above, you must meet the minimum entry requirements for progression to a linked degree programme with QTS:

GCSE English Language, maths and science at grade 4/C (or Equivalent)

Professional Skills Tests in Maths and English

You will also be required to successfully complete the University's selection process for this programme including an interview, enhanced DBS check and 'fit to teach' assessment.

If you are unable to meet the requirements for progression on to a linked Primary Education with QTS degree but have passed the foundation year, you may opt to progress onto a linked childhood and education degree.

## 10. Prerequisites

Details of modules which must be passed before enrolment on a module at a higher level.

None

## 11. External examining arrangements

External examining arrangements  
(eg. joint with another programme – extended duties for someone already in post – or separate, single/multiple examiners; if multiple examiners, which subjects / types of module are to be allocated to each; any PSRB requirements)

As the foundation year is Level 0, no external examination will be undertaken. This arrangement is in line with the Level 4 pathways that are available on the named linked honours degrees. All level 5 and 6 in linked degrees will be the subject of external examination. Rigorous moderation of students' marks will however be carried out by foundation year tutors.

## 12. Additional information

Details regarding arrangements in respect of any special features of the programme/scheme,  
(eg. a non-standard delivery pattern, study abroad, a field course, specific work placement, opportunities for onward progression from foundation degrees, constraints on out-of-programme optional module choices)

Placements are not part of the foundation and students will access this opportunity when they progress to their levels 4 and 5.

## 13. Additional support needs

Arrangements made to accommodate students with additional support needs and any unavoidable restrictions on their participation in the programme/scheme

Students with disabilities or other support needs will have access to the 4 year pathway and are expected to be able to participate fully in this programme. Arrangements will be made, via the normal University support systems, to accommodate students with additional support needs wherever possible, with reasonable adjustments made to accommodate individual needs.
